VIDEO-PRESENTATIONS

Presentation title	Authors	DOI
Quantitative characterization of ferritic ductile iron damaging micromechanisms fatigue loadings	V. Di Cocco, F. Iacoviello, A. Rossi, D. Iacoviello	https://doi.org/10.53255/IGFTUBE.WS2012_A.1
Determination of geometrical properties of surfaces with grids virtually applied to digital images	S. Galli, V. Lux, E. Marotta, P. Salvini	https://doi.org/10.53255/IGFTUBE.WS2012_A.2
Image processing approach in Zn-Ti-Fe kinetic phase evaluation	V. Di Cocco, F. Iacoviello, D. Iacoviello	https://doi.org/10.53255/IGFTUBE.WS2012_A.3
Morphological characterization of cellular materials by image analysis	A. Boschetto, F. Campana, V. Giordano, D. Pilone	https://doi.org/10.53255/IGFTUBE.WS2012_A.4
On the use of a differential method to analyze the displacement field of digital image	V. Lux, E. Marotta, P. Salvini	https://doi.org/10.53255/IGFTUBE.WS2012_A.5
